## PRODUCT SAFETY DATA SHEET

Trade name : Dish Wash Liquid  
Type: Non Hazardous  
Manufacturer: Super Care detergents & disinfectant factory  
Brand: Nicy Care

**General Characteristics** DISH WASH is a concentrated neutral liquid detergent with a deep florescent yellow colour and a lemon fragrance. The product is very active when diluted as recommended, as suitable for all manual cleaning and dish washing in household and industrial applications.

**Features:** Even though, DISH WASH in a concentrated form, the coupling solvents incorporated in it, helps it go into solutions instantly, penetrate contamination and rapidly emulsify and disperse the residues. It is effective in both soft and hard water, hot or cold. The high proportion of solvents present in DISH WASH help in quick and spot free rinsing.

### Specifications:

Appearance : florescent yellow

viscous liquid with lemon perfume Sp.gr. at 20deg c : 1.01  $\pm$  0.01

Viscosity at 20 deg c : 750cps  $\pm$  100cps PH : 7 - 8

**Areas of application** : DISH WASH can be used for any cleaning operation, where a neutral, perfumed detergent is desired for. However, it is specially designed for dish washing applications in hotels, hospitals, institutions, canteens, cafeterias, homes etc. DISH WASH is ideal for food handling equipments, working surfaces, vitreous surfaces, cutlery and stainless steel.

**Method of application and dilution** : DISH WASH can be used as a conventional dish washing liquid. Dilute solutions can be applied onto the surface scrubbed with a sponge or synthetic abrasive and rinsed with water. For general cleaning applications, optimum dilution can be 1:50 upto 1:200. For oily and dusty surfaces 1:3 dilution with efficient scrubbing and warm water will be adequate. For hand washing apply a small quantity of DISH WASH onto the hands and rinse off with water.

### Safety precautions:

KEEP OUT OF REACH OF CHILDREN. DISH WASH is generally safe, it is advisable to wear gloves. For short term applications,
